

EZ SERIES Pluggger Panel

Easy Installations with EZ Series® Panels from SJE-Rhombus®!

The **NEW EZ Series® Pluggger** panel provides a convenient wiring connection for use with one single phase pump in effluent and sewage installations. The **EZ Series® Pluggger** panel features a **built-in high water alarm** and a **receptacle** to accept a 120V or 230V pump and a piggy-back pump switch. The **convenient mounting post** (optional) features a **removable access door** to allow for **easier wiring**. **EZ Series® Pluggger** panel is **UL/cUL Listed** and backed by a **three-year limited warranty**.

EZ Series® Pluggger Features:

- 1 NEMA 4X enclosure with hinged cover for indoor/outdoor use
- 2 Red alarm beacon
- 3 Locking latch (standard) for added safety
- 4 Audible alarm
- 5 Alarm fuse
- 6 Receptacle for pump and pump switch (120V or 230V)
- 7 Terminal strip for easy wiring
- 8 External test/normal/silence switch with automatic alarm reset for easy operation

Optional Post Features:

- 9 Post can be mounted directly into ground, over a 4x4, or conduit for **quick, clean, easy installation**
- 10 Post features removable access door for easy wiring
- 11 Custom engineered liquid-tight 2" cable seal
- 12 Incoming pump power 3/4" hub

Available Options:

Elapsed time meter, duo alarms and **auxiliary contacts** available for local **code compliance**
