Tree Roots cleaned from a 15" line.

- We can clean the kitchen sink line or main sewer lines.
- Jetters & cable rodders.
- Camera Inspections
- Preventive Maintenance Contracts

Zeiter's Septics Unlimited

We can clean lines from 1-1/2" - 30".

We are a Full Service Septic Company, but some of our customer's may not realize that we have always cleaned sewer lines too. We have all types of cable rodders to dolly mounted jetters up to the trailer mounted units that we use for the larger diameter lines and Municipalities. The best way to clean a line is with water pressure. When you use a water jetter you have water under pressure anywhere from 1000 psi to 5000 psi with a variety of cleaning nozzles. These nozzles can have a front penetrating jet or front & rear jets that are on 45 degree angles for complete cleaning of the line as it is pulled backwards through the line. The best way to clean a line is

from the downhill side. We have nozzles for cleaning & cutting out tree roots, grease trap lines even frozen lines. Sometimes it may not be practical to use a jetter i.e. inside a building or residence if the line is plugged you do not want to add more water to a line that is not draining, this is where are cable rodders are used.

We have push rod camera's for televising the lines after the cleaning to verify that the line is cleared. We can provide you with a video on a flash drive or DVD. We offer Preventive maintenance contracts for restaurants, commercial business's, schools etc. or just call us when you think you

may be having problems. We provide service to most of the local Fire Stations, Channahon, Minooka, Braidwood, Nettle Creek & Gardner Schools, as well as Lyondel, Aux Sable, Stepan Chemicals, Akzo Nobel factories just to name a few.

A picture is worth a 1000 words. Solid chunks of grease & soap in a local school's main line. The entire line was almost closed off. The students did not like that we were able to clean the line and keep the school open.

We have the tools, knowledge & personnel to service you!

We have been in the service industry since 1978. We have worked very hard to get where we are today, and were not going to stop. We are proud of what we have accomplished, but we do not take anything for granted. We are fortunate to have such a loyal customer data base. We are ap-

proaching nearly 12,000 customers. All of our employee's are Three Rivers & Twic certified. They are cross trained and knowledgeable with every aspect of our business. Most of all they are kind and courteous to your needs and go out of there way to provide professional service to you. When

you call us you will talk to a live person that can answer your questions. Not an answering service or take a message and will get back to you attitude. Our hours are M-F. 7-4, Saturdays by appointment. We do come in early for restaurants etc as to not disrupt there business. Please give us a call!
